Boxit Storage

01. The Client

Boxit Storage is a fast-growing startup that offers 24/7 self-storage service across the Middle East. The startup offers an easy and cheap self-storage pay-as-you-go service that takes care of all your personal possessions and keeps them safe remotely. The startup is the winner of so many awards including top 50 most promising startups in the UAE by Forbes, Dubai smart city app hack, Seedstars World, Meetup Mena and Spain startup's The South Summit.

02. The Requirement

Boxit wanted to introduce a simple, easy to access, cost-friendly, safe and technology-driven solution that helps people to store items that they don't use regularly but wouldn't want to throw away.

03. The Solution

AlignMinds developed a web and mobile-based solution that helps registered users to connect with major storage space providers and make requests for sending, storing and receiving their personal items all through a single platform.

04. Features

UX/UI

The solution was developed using the latest trends prevailing in the market. To make the interface attractive and useful to the users, we incorporated different trends like responsive design, transparent background and ghost buttons.

Dashboard

The dashboard helps registered users to view the items in the store and request for return if needed.

Box setup

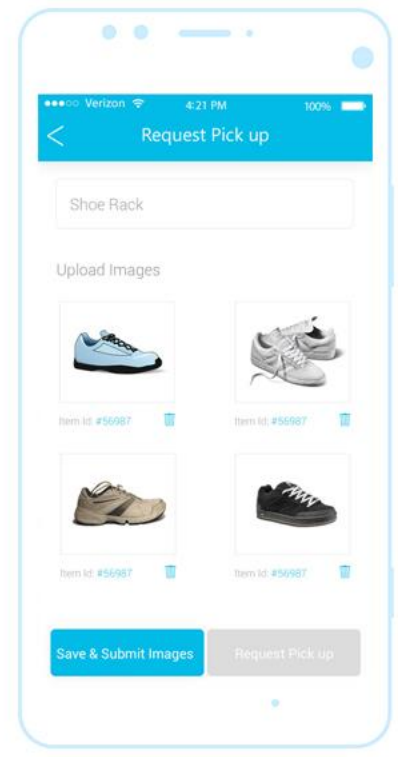

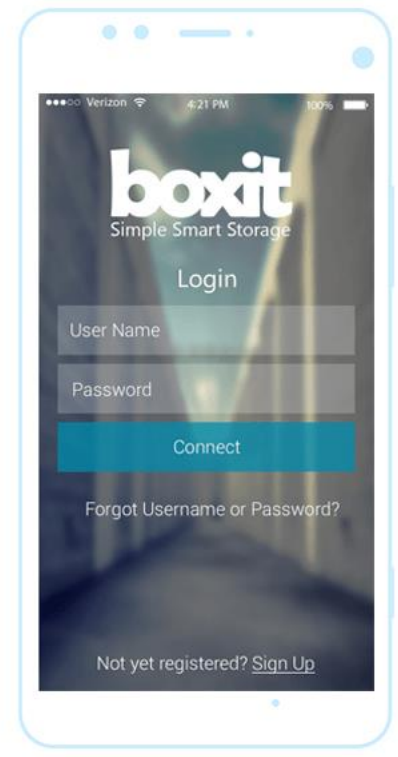

This core function enables users to request a box with dimensions of their choice, choose pickup date & time, make payment and view status of the request made.

Alert system

Admin and sub admin category users get automated alert messages when the system meet with something unexpected. For example, if no pickup or delivery happens within a stipulated time, an alert message will be generated and is sent to all the administrators.
