

03 EMS2GO App

01. The Client

Postal Corporation of Kenya (PCK) is the largest distribution name in Kenya with a mission to deliver superior communication, distribution and financial solutions to customers and create value for their stakeholders. Through the 623 outlets that are spread across Kenya, PCK is the most accessible, affordable, and reliable service provider in the country.

02. The Requirement

Postal Corporation of Kenya wanted to introduce a comprehensive solution in the market that would help them with streamlining their distribution service by offering door-to-door pick up and delivery with the help of motorcycle, van, pick up and truck owners in the country.

03. The Solution

Our team developed a comprehensive solution that consists of mainly three components; a consumer pick up and delivery app to help registered users to place and track orders real-time, a driver app to help drivers and riders timely deliver the package to the right recipient and a web backend that helps the staff of PCK to manage the system.

04. Features

Driver App

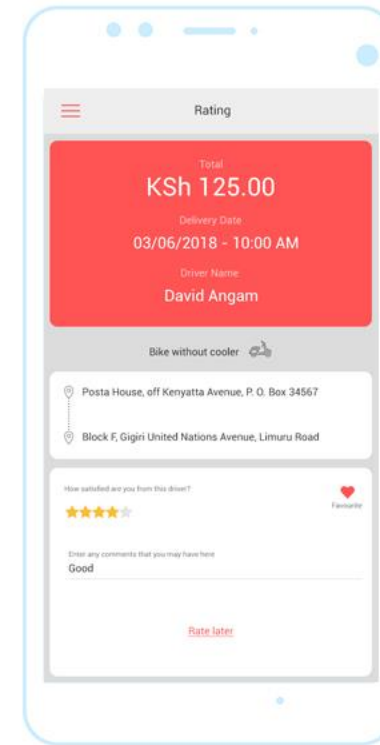

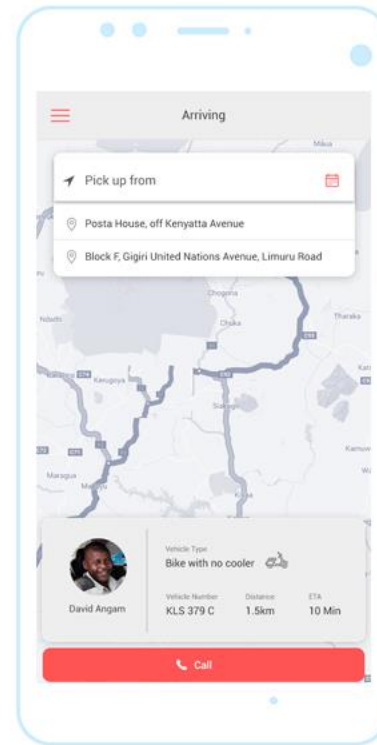

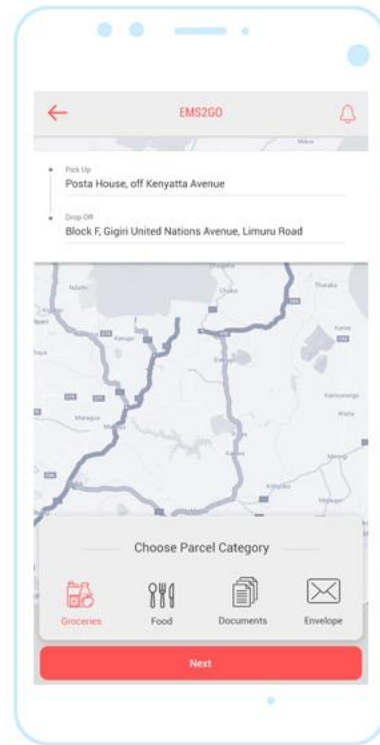

- Orders are assigned to drivers and riders based on their location
- Turn by turn navigation to help drivers and riders deliver packages to the right recipient at the right time
- View the amount of money earned at any time on the app interface itself
- Pick up and delivery requests are accepted only from registered users, making the platform most secure for drivers and riders
- Drivers/riders have the privilege to rate their clients based on the experience they had with them, once the delivery is completed

Consumer App

- Place pick up and delivery orders
- View order summary
- View order history
- Track and trace packages real-time
- Schedule pick up and delivery time
- Chat support
